Along the way he overcomes obstacles, is distracted and tempted, but ultimately achieves the designation of master who will enlighten the younger generations. Canal Cruise (USD 29/pp)

It will be over one hour boat ride on the canals. That will be quite an experience for you. Part of the cruise will be on the ancient Grand Canal, which was dug up over 1,300 years ago. This Grand Canal with a total length of 1,100 miles is the longest man-made canal in the world, far longer than the Suez Canal and the Panama Canal. It is one of the two most famous engineering feats in China. And part of the cruise will be on the smaller side canals in the old part of the city. This will be the most interesting part of the cruise. Since you can not only see the water country view with old arched bridges and old houses on the two sides of the canal, which this city is famous for, but also you will get a firsthand view of what life is like living on the canal. Laundry hanging on lines to dry, children playing and waving, potted plants bathing in the sun and women doing laundry in the canal are common sights along the canal. Half way of the cruise you will also make a stop in the old part of the city to explore the real life of the ordinary people. There is a local market there, and you will have the chance to see a lot of interesting things of the daily life of the local natives. That will also be a fun experience. The canal cruise will be the charm of the "Venice of the East". Those not going on the tour will walk around the local wedding dress markets with the tour guide.

ERA Show (USD 39/pp)

Invested with nearly US \$10 million created by international masters, the first of its kind in China, ERA is a multimedia odyssey whose inspiration is a direct result of the combination of traditional Chinese acrobatic arts and modern technology. Just like Shanghai, ERA evolves through a constant collision between the past and future. ERA is a love story, yet it is also contemplation across the millennia, a fascination with that other dimension man has yet to conquer: time. Not only will the audience be amazed by the acrobats' control and precision, they will be enchanted by the world that is created through the use of multimedia, technology, lighting and sound effects, elaborate costumes, original live music and a lot more. The one and a half hour show tells of a fascinating story with a journey of "past", "present" and "future". The audience will be subject to the stimulation of vision, wind, surrounding sound and effect of light or no light... Making them become show participants. As such, ERA can remain universal, without language or cultural barriers. A thousand-year-old gesture is worth a thousand emotions, a thousand images, a thousand words.
